Part B – SWOC analysis of the student (Please mention below the strengths and weaknesses of the student and the areas for improvement)

Strengths

- Strong problem-solving ability and logical thinking skills
- Quick learner with the ability to grasp new technologies and tools efficiently
- Consistent and disciplined approach towards completing assigned tasks

Weaknesses

- Occasional difficulty in debugging complex errors
- Needs improvement in writing optimized and efficient code
- Lack of confidence while presenting technical concepts

Part C – Suggestions to make the internship programme more productive and effective.

1. A Structured learning approach with weekly roadmaps, mentorship sessions, code reviews, assessments, and advanced topics can improve both theoretical understanding and industry readiness.

2. Focusing on hands-on and team-based projects will enhance practical skills, collaboration, problem-solving, and overall coding efficiency.

Part D – Changes required in the curriculum to improve employability of students.

A project-based learning approach with real-world applications will strengthen practical knowledge and help students build a strong professional portfolio.
